SwingGate HT336 ADA Passage Width

Full Height For Security • Matches SecureTurn Full Height Turnstiles

SwingGate HT336 with Bars

Shown in Galvanized
(36" or 48" ADA opening)

SwingGate HT336M with Mesh

Shown in Stainless
(36" or 48" ADA opening)

Applications:

Full height ADA handicap gates provide maximum security and authorized access for easy entry and/or exit. The SwingGate HT336 or HT336M (36") and the HT448 (48") can easily be configured to different levels of functionality and designed to be paired with our full height turnstiles. They can also be used as stand alone units and easily integrated into existing access control systems.

Materials and finishes available in:

- Hot Dip Galvanized Steel
- Powder Coat over Steel
- 304 Stainless Steel

Matching SecureTurn Full Height turnstiles in this series:

SecureTurn HT431 Standard Passage 31"
SecureTurn HT439 Wide Passage 39"
SecureTurn HT448 Extra Wide Passage 48"
SecureTurn HT431T Tandem Size for double passage

About Hayward Turnstiles:

Hayward Turnstiles has over 50 years of expertise in quality manufacturing of precision aircraft parts and reliable turnstiles.

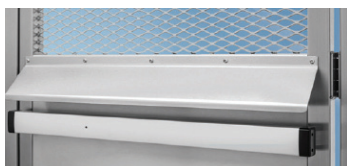

Our factory, in Milford, CT, is AS9100 Certified to aerospace standards, resulting in superior turnstiles. Engineered to industrial grade specifications, they are durable and built tough for long lasting performance. Proudly made in the USA, we distribute worldwide with installations across the globe.

Hydraulic Closer (included)

Optional motorized operation for hands-free opening & closing.

Panic Bar

Full-width push bar for exit (Mesh models only).

Applications:

The SwingGate HT336 or HT336M (36") and the HT448 (48") can easily be configured to different levels of functionality and designed to be paired with our full height turnstiles. They can also be used as stand alone units and easily integrated into existing access control systems.

Product Finish:

Available in all of our standard finishes (stainless, powder coated, or galvanized) to match our turnstiles.

Design & Construction:

- Designed as an ADA compliant solution for perimeter security
- 36" standard passage width with an overall width of 43"
- Fully welded exterior components
- Built from heavy gauge materials that meet ASTM standards
- Choice of standard vertical bars or reach prevention mesh
- Minimally exposed, tamper proof hardware

Gate Operation:

- Gate automatically closes with included hydraulic door closer
- Field reversible electronic strike lock (24VDC) included
- Strike lock can be used mechanically or electronically

- Gate can be locked and unlocked using a key
- Strike lock can be set to lock or unlock the gate during power failure
- Voltage for electronic strike can be taken from nearby turnstile power supply

Options:

- Heavy gauge tight weave mesh (HT336M)
- Push operated panic bar for free exit situations (only available with mesh option)
- Magnetic lock (replaces included strike)
- Motorized gate opener (requires 110VAC)
- Push buttons (wired or wireless)
- Customizable passage widths (up to 40")
- Additional options available upon request

Electrical Specifications:

UL Approved Electronic Strike: Input Voltage: 24VDC
Input Current: 170 mA

Warranty:

Units are warranted against defects in materials and workmanship for one year.
